MAY 28, 2008

Alhambra, CA - Following the success of the first *Systema Naturae* exhibition, Gallery Nucleus is proud to present *Systema Naturae II: Submerged*. The show features new and original work by Michael Brown, Frieda Gossett, Andrea Offermann, Ver Mar, and Jaime Zollars.

*Systema Naturae II* explores the link between human beings and water—the essential source of life for all living organisms. As both the root of human origins and the inspiration behind the artwork for *Systema*, water is the visual and thematic starting point in creating an exhibition as varied and complex as the natural world itself.

Please join us for the opening reception on July 12, 2008 where we will have refreshments, music, and several artists in attendance.

## ABOUT THE ARTISTS

As a prolific painter, **Michael Brown** has shown in galleries both nationally and internationally. He has been featured in various publications and is currently residing in Atlanta where he is a professor of painting for the Savannah College of Art and Design.

**Frieda Gossett** is known for her beautifully crafted leather works, in addition to her paintings and drawings. She has shown in various galleries throughout Los Angeles.

A welcome new addition to the *Systema* roster, **Ver Mar** is a versatile artist whose artwork extends across mediums. She has done illustrations, graphic design, metalwork, and sculptures—just to name a few.

Along with being an established illustrator well-known for her fine details, **Andrea Offermann** has also been published in the graphic novel anthology *Flight*, and is a freelance illustrator residing in Germany.

**Jaime Zollars** is an award-winning illustrator whose work can be seen in various children's books and publications. She has shown in galleries throughout the U.S. and is currently working as a freelance illustrator.

*Since October of 2004*, Nucleus has strived to be a welcoming gathering place for the art loving community by offering quality art, art-related goods, and rarities. Focusing primarily on gallery exhibits, we have also had benefit auctions, product signings, music events, and artist lectures.

After three and a half years, we moved one block east to a much larger and more dynamic space. Still in the heart of quaint downtown Alhambra, we re-opened in March of 2008 with over 2000 square feet of open gallery space, 1000 square feet of shop/boutique, and over 3000 square feet of studio/production space.

Having exhibited both local artists and artists from abroad, and catering to an international customer base, we offer an extensive collection of original contemporary, illustrated, graphic, commercial, and narrative art. (All of which are carefully cataloged online in our website.)

Always open to the public, we welcome art collectors and the general public alike to visit us seven days a week.
