About the Artist:

Yumiko Kayukawa grew up in the small town of Naie in Hokkaido, Japan. In this pristine, natural surrounding, she found her love of animals and nature which later became an important theme for her work. As she grew up, Yumiko drew inspirations from American pop culture such as Rock & Roll, film and fashion. These influences are fused with modern and traditional Japanese motifs to create her unique style.

About Nucleus

Since October of 2004, Nucleus has strived to be a welcoming gathering place for the art loving community by offering quality art, art-related goods, and rarities. Focusing primarily on gallery exhibits, we have also had benefit auctions, product signings, music events, and artist lectures. After three and a half years, we moved one block east to a much larger and more dynamic space. Still in the heart of quaint downtown Alhambra, we re-opened in March of 2008 with over 2000 square feet of open gallery space, 1000 square feet of shop/boutique, and over 3000 square feet of studio/production space. Having exhibited both local artists and artists from abroad, and catering to an international customer base, we offer an extensive collection of original contemporary, illustrated, graphic, commercial, and narrative art - all of which are carefully catalogued on our website –
