#### **About *The Big Bang Theory***

Leonard and Sheldon are brilliant physicists — geniuses in the laboratory, but socially challenged everywhere else. Enter beautiful, street-smart neighbor, Penny, who aims to teach them a thing or two about life. Despite their on-again, off-again relationship in the past, Leonard believes he's

found true love with Penny. Even Sheldon has found a female companion, entering into a "Relationship Agreement" with neurobiologist Amy Farrah Fowler. In their free time, Leonard and Sheldon continue to enjoy frequent trips to the comic book store and fantasy role-playing games with their ever-expanding universe of friends, including fellow scientists Raj Koothrappali, Howard Wolowitz and Wolowitz's adorable microbiologist wife, Bernadette. Now in its seventh season, The Big Bang Theory ranks as TV's #1 entertainment series among Adults 18–49. The series airs Thursdays at 8/7c on CBS as well as five nights a week in syndication. Johnny Galecki, Jim Parsons, Kaley Cuoco, Simon Helberg, Kunal Nayyar, Mayim Bialik and Melissa Rauch star in the series, which was created by Chuck Lorre & Bill Prady, who also serve as executive producers along with showrunner Steve Molaro. The Big Bang Theory is produced by Chuck Lorre Productions, Inc. in association with Warner Bros. Television.

### **About Nucleus**

Since October of 2004, Nucleus has strived to be a welcoming gathering place for the art loving community by offering quality art, art-related goods, and rarities. Focusing primarily on gallery exhibits, we have also had benefit auctions, product signings, music events, and artist lectures. After three and a half years, we moved one block east to a much larger and more dynamic space. Still in the heart of quaint downtown Alhambra, we re-opened in March of 2008 with over 2000 square feet of open gallery space, 1000 square feet of shop/boutique, and over 3000 square feet of studio/production space. Having exhibited both local artists and artists from abroad, and catering to an international customer base, we offer an extensive collection of original contemporary, illustrated, graphic, commercial, and narrative art - all of which are carefully catalogued on our website – [www.gallerynucleus.com](http://www.gallerynucleus.com)
